

# MUHAMMAD RASHID SHAFIQUE

## Full-Stack & AI Software Engineer

Faisalabad, Pakistan • +92 319 8696623 • rashidshafique.dev@gmail.com

[github.com/rashidshafique-dev](https://github.com/rashidshafique-dev) | [linkedin.com/in/rashidshafique-dev](https://linkedin.com/in/rashidshafique-dev) | [rashid-shafique-portfolio.vercel.app](https://rashid-shafique-portfolio.vercel.app)

Full-stack software engineer specializing in AI-integrated web and mobile applications. Architects production-grade systems end-to-end — database design, secure REST APIs, responsive frontends, and cross-platform apps — with shipped, publicly live projects and a focus on measurable performance improvements.

## EDUCATION

### University of Agriculture Faisalabad (UAF)

Sept 2023 – 2027 (Expected)

Bachelor of Science in Computer Science (BS CS) • Faisalabad, Pakistan • Top Academic Tier

- Core Coursework: Data Structures & Algorithms, Object-Oriented Programming, Relational Database Management Systems (SQL), Operating Systems, Software Engineering, Web Systems Architecture.
- Academic Focus: Algorithmic Time/Space Complexity (Big-O Analysis), Database Optimization, Distributed Systems fundamentals.

## EXPERIENCE

### Freelance Software Engineer — Full-Stack & AI Systems

2023 – Present

Independent / Remote • Faisalabad, Pakistan

- Architected and shipped production-grade Python backend services (Django, DRF, FastAPI) applying OOP design patterns and modular software principles for maintainable codebases.
- Designed optimized SQL schemas, normalization models, and indexing strategies that cut API response latency by 42% and eliminated redundant database round-trips.
- Engineered secure authentication using stateless JWT (auto-rotation/blacklisting) and Google OAuth 2.0 SSO.
- Built responsive, production-deployed frontends in React.js (Vite, Tailwind CSS) and cross-platform mobile apps in React Native (Expo), shipped to Vercel and Railway.

## FEATURED PROJECTS

### Shifaa — AI-Powered Hospital Management System

[al-shifaa-hms.vercel.app](https://al-shifaa-hms.vercel.app)

- Architected a multi-role hospital platform (Admin, Doctor, Patient, Nurse, Receptionist, Pharmacist) with an AI voice receptionist for natural, voice-based appointment booking.
- Integrated Groq API (Mistral-7B / Llama 3) for conversational AI, Whisper for real-time speech-to-text, and Coqui TTS for natural voice responses.
- Built JWT-secured auth, a feature-sliced React frontend, and a normalized Supabase (PostgreSQL) schema for scalable data access.
- Stack: Django REST Framework, React 18, Vite, Tailwind CSS, Supabase (PostgreSQL), Groq API, Whisper STT, Coqui TTS, JWT.

### Rescue Project — Missing Person Search & Coordination System

[rescue-project.vercel.app](https://rescue-project.vercel.app)

- Engineered a search-and-rescue web console for missing person registrations and volunteer squad coordination as part of a team project.
- Applied difference-hashing algorithms for image comparison and configured secure JWT-based authentication workflows.
- Stack: Python, FastAPI, Django, React.js, SQL, JWT.

### Bhutta Scents Storefront

[bhuttascents.com](https://bhuttascents.com)

- Built a custom e-commerce storefront for a luxury fragrance brand with dynamic product catalogs and responsive cart management.
- Engineered custom responsive grid layouts and UI micro-interactions without relying on heavy third-party component libraries.
- Stack: React.js, Vite, Tailwind CSS, Vanilla CSS Modules.

**Additional Projects:** AioVerse (React Native productivity suite, in progress), Hotel Management System (Django + React, in progress), Face Recognition Attendance System, Quran Assistant (Django + OpenAI), Food Delivery App (React + Firebase), Pharmacy Management System (C# WinForms), LAN Chat App (Python). Full list and source: [github.com/rashidshafique-dev](https://github.com/rashidshafique-dev)

## SKILLS

- **Languages & Fundamentals:** Python, JavaScript/TypeScript, SQL (Familiar: C++, Java) — Data Structures & Algorithms, OOP, Big-O Analysis, RDBMS, Operating Systems
- **Backend & Auth:** Django, Django REST Framework, FastAPI, JWT Auth, Google OAuth 2.0
- **Frontend & Mobile:** React.js, React Native (Expo), Vite, Tailwind CSS
- **Databases & Cloud:** PostgreSQL, Supabase, Firebase, Vercel, Railway
- **AI & Voice:** Groq API, Whisper STT, Coqui TTS, OpenAI API, Prompt Engineering
- **Tools:** Git, GitHub, GitHub Actions
